Contributor license agreement (CLA) for pretix

Version 1.1 – July 2025

Thank you for your interest in pretix. We value your dedication to improve pretix by offering to submit a contribution. We (pretix GmbH, Berthold-Mogel-Straße 1, 69126 Heidelberg, Germany) ask you (the person or entity identified below and hereinafter referred to as „Contributor") to sign this CLA in order to clarify the intellectual property rights you grant us in the contributed materials.

pretix is licensed under the GNU Affero General Public License, Version 3 (AGPLv3), with some related projects (e.g. our client-side apps) licensed under the GNU General Public License (GPLv3). In our attempt to create a sustainable business based on pretix and thus securing the long-term availability of pretix we additionally offer pretix using a proprietary license.

We promise that your Contribution will be part of the open-source edition, if it gets merged. „Contribution" means any development contribution or any other code that the Contributor contributes to pretix or related open-source projects by pretix GmbH, as well as documentation, graphics and other works protected by copyright, that are posted or submitted in the context of this agreement by the Contributor.

Additionally, we may also integrate it into the proprietary licensed edition. This CLA does not change your right to use your own Contributions for any other purpose but gives us the chance to use your Contribution. If you have more questions, send us an email at support@pretix.eu.

If you agree to be bound by this CLA, fill in the information requested below, sign the CLA where indicated below, scan the paper and send a picture/PDF to support@pretix.eu or send it by regular mail to pretix GmbH, Berthold-Mogel-Straße 1, 69126 Heidelberg, Germany. Please read this document carefully before signing. The CLA constitutes a legal binding agreement.

Terms of the Agreement

This CLA is entered into between the Contributor and pretix GmbH. Accordingly, the Contributor hereby agrees to the following terms for the present and future Contributions submitted by the Contributor to pretix GmbH:

§ 1 Grant of rights

(1) The Contributor hereby grants to pretix GmbH a perpetual, non-exclusive, irrevocable, worldwide, royalty-free, transferable copyright license

- to publish the Contribution by the Contributor,
- to modify the Contribution by the Contributor,
- to reproduce the Contribution by the Contributor,
- to distribute the Contribution by the Contributor in modified or unmodified form and/or to rent it,
- to make the Contribution of the Contributor available to the public in modified or unmodified form and/or to otherwise publicly perform it. This includes the use in networks, application service providing, in the context of cloud services and the use as Software as a Service.

(2) The Contributor hereby grants to pretix GmbH a perpetual, non-exclusive, irrevocable, worldwide, royalty-free, transferable patent license to transfer any number of non-exclusive licenses to third parties and the right to grant sublicenses to third parties. Furthermore, the Contributor hereby grants to pretix GmbH the right to produce, use, sell, import or otherwise transfer the Contribution and the Contribution in combination with the materials (as well as components of this combination). This license applies to all patents owned by the Contributor that would be infringed by exercising the license regardless of whether they are already acquired or are acquired in the future, by performance, transfer to service, use, sale, offer to sell, import or any other transfer of the Contribution, either alone or in combination with the materials.

(3) The rights granted in section 1.1 and 1.2 may be further assigned as desired by pretix GmbH, especially in the context of open source licensing and for proprietary use.

(4) The Contributor shall however be entitled to use the software of pretix developed by pretix GmbH and offered under the AGPLv3 under the conditions of the AGPLv3. This applies accordingly for other open source licenses, in case pretix GmbH decides to change the license, and in case of related projects published under different open source licenses.

§ 2 Warranty

(1) The Contributor warrants and represents that he is the only and exclusive owner of rights in the Contribution and/or that the Contributor is entitled to grant the rights and licenses under this agreement. The Contributor further warrants and represents that the Contributor has not granted any exclusive rights to any third party regarding the Contribution and the rights and licenses granted under this agreement. In case the Contributor has developed the Contribution within the scope of an employment or an order, the Contributor has to ensure that the Contribution does not violate any license or other restriction (like related patents, trademarks, and license agreements) before signing this agreement and transmitting the Contribution to pretix GmbH.

(2) All other warranties are specifically excluded. The Contributor provides the Contribution on an as-is basis and does neither warrant the usability of the software nor that it is free from defects.

§ 3 Liability

(1) Claims for damages and claims for compensation shall be excluded irrespective of their legal basis vis-à-vis all contracting parties, unless the damage was caused willfully. This restriction does not apply to personal damages, in case of liability according to the Product Liability Law and insofar as regards claims for damages arising out of warranties or representations given under this agreement.

§ 4 Choice of law, court of jurisdiction

(1) This agreement shall be exclusively governed by and construed under and in accordance with the laws of the Federal Republic of Germany, specifically excluding the application of principles of conflict of laws.

(2) All disputes arising out of or in connection with this agreement shall be subject to the exclusive jurisdiction of the courts of Mannheim, Germany.

§ 5 General provisions

(1) This agreement shall come into effect upon signature of the Contributor and acceptance of the Contribution by pretix GmbH.

(2) This agreement contains all the agreements between the parties with respect to the subject matter hereof and supersedes all prior understandings and agreements relating to the subject matter of this agreement; there are no side agreements.

(3) All amendments, supplements and notices of termination of this agreement are required to be made in writing and signed by all of the parties hereto, as does any revocation or amendment of this requirement of the written form.

(4) Should individual provisions of this agreement be or become invalid, the validity of the remaining provisions shall not be affected thereby. The invalid provision shall be replaced by a substitute provision which most closely reflects the purpose intended with the invalid provision; the same shall be done in case of a gap in this agreement.
